Hebridean Housing Partnership

FES FM Ltd are delighted to announce their recent success in securing the term contract with Hebridean Housing Partnership [HHP] to maintain their housing stock across the Western Isles.

The unique circumstances and local identities that exist across the Western Isles offer us an ideal opportunity to differentiate our service provision to support local communities within the scope of the contract. We are keen to build upon our relationship with the HHP to make a difference to the households encapsulated by this undertaking its term.

FES FM's Operations Manager, Mr Dougie Ferguson, will be moving to the island with his family from early January 2011 to oversee the operations of this contract along with the Western Isle Schools Project.

In early 2011, FES FM will be holding an open day in Stornoway for all suppliers on the island to discuss their requirements and investigate opportunities for local businesses to support FES FM in providing a first class service to each of these projects.
