

Western Isles  
Schools Project

## Western Isles Schools Project

**FES FM are proud to announce the completion of the arrangements to support the innovative Western Isles Schools Project.**

Working alongside FMP, and Sgoiltean Ùra LLP; FES FM will undertake to provide a range of hard and soft FM services across a number of sites, ranging from Lewis and Harris to Benbecula.

Covering a number of schools in a mix of primary and secondary education, this opportunity represents the single largest contract to be let on the Western Isles.

The new build and enhanced facilities will provide modern and inspiring facilities for 21st century educational delivery. Acting as a focal hub for each local community, each of the Project Schools represents a significant investment in long term, sustainable opportunities for the communities they support.

The innovative procurement of this project by Sgoiltean Ùra offers opportunity and an insight into alternative PPP procurement models, and FES FM are thrilled to be involved in this ground breaking initiative.

This project further augments FES FM's presence at the fore of FM Service delivery in PPP and PFI projects across the entire UK and builds upon their partnership ethos in the wider corporate FM market.

FES FM Managing Director, Ian Maitland "FES FM Ltd are delighted to be selected by Sgoiltean Ùra LLP to provide the FM services for the prestigious Western Isles Schools Project. We are excited to be involved with such a forward thinking Authority. In our experience of implementing and fine tuning outsourcing arrangements – success is driven by the quality of the relationship rather than the fine detail of the contract. Our experience with Sgoiltean Ùra LLP to date bodes well for the future success of the project."
